

Szabo on Skin

DR. SACI SZABO, MD, FAAD · DERMATOLOGIST, PHYSICIAN-SCIENTIST & MEDIA EXPERT

APPROVED BIOGRAPHIES

Dr. Saci Szabo, MD, FAAD

Short bio

Dr. Sarolta “Saci” Szabo (MD, FAAD) is a board-certified dermatologist and dermatologic surgeon, physician-scientist, and the founder, CEO, and medical director of Alta Vista Dermatology near Denver, Colorado. A Castle Connolly and 5280 Top Doctor, former President of the Colorado Dermatologic Society, and former Clinical Assistant Professor at the University of Colorado, she trained at Case Western Reserve University, has contributed to 15+ clinical trials and peer-reviewed publications, and built one of the region’s leading private practices. As a full-spectrum dermatologist, she treats and speaks across the entire field, with particular emphasis on women’s midlife skin, sun protection, hair loss, aesthetic medicine, and the science behind skincare ingredients such as peptides.

Long bio

Born and raised in Szeged, Hungary, Dr. Szabo graduated cum laude from the University of Szeged medical school in 1995. She came to the U.S. for dermatology, completing psoriasis research at Case Western Reserve University and clinical research at University Hospitals of Cleveland, followed by her dermatology residency at Case Western, where she served as Academic Chief Resident. A co-investigator on more than 15 clinical trials, published author, and peer reviewer for journals including the Journal of Investigative Dermatology, she founded Alta Vista Dermatology in 2010 and grew it into one of the region’s leading private practices. A Castle Connolly and 5280 Top Doctor, former President of the Colorado Dermatologic Society, and Clinical Assistant Professor at the University of Colorado through 2020, she is today a sought-after speaker and regular media contributor. As a full-spectrum dermatologist she covers the whole of the field, from medical and surgical dermatology to skin cancer and cosmetic care, while bringing special depth to women’s skin through perimenopause and menopause, hair loss and healthy aging, sun protection, injectable and energy-based aesthetics, and the evidence behind popular skincare ingredients including topical and injectable peptides.
